> 50 Countries with successfully implemented projects

> 350 Employees worldwide

> 1.000 Customers worldwide

> 5.000 Construction sites annually

Our strong brands:

OUR PROMISE: WE GUARANTEE SAFETY WHILE WORKING EFFICIENTLY AND SUSTAINABLY

Our solutions ensure the safety of our customers

- Safety is our greatest asset. It is not a commodity to be treated lightly.
- In everything we do, the safety of our customers and the surroundings of their construction sites and buildings is paramount.

The efficiency of our solutions gives our customers a real competitive advantage

- The core component of our solutions is the holistic assessment of the individual challenges on the respective construction site.
- From this, we derive our recommendation for the best material, machine technology and installation method for the respective project.

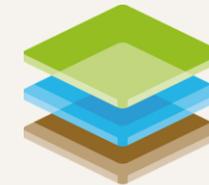

Through our rental business, we have been promoting the circular economy for decades and setting an example in terms of sustainability

- Through our rental business, we utilize the longevity of our products and avoid wasting resources.
- Our main goals are to actively support the path to CO₂-free steel production and to drive forward the development of emission-free and vibration-free machine technology.

The focus is always determined individually according to **your needs** for the specific project

Safety: efficient and sustainable

Efficiency: safe and sustainable

Sustainability: safe and efficient

AS THE MOST INNOVATIVE SOLUTION PARTNER, WE CONTINUOUSLY ENSURE THAT SAFETY, EFFICIENCY AND SUSTAINABILITY ARE NOT A CONTRADICTION

Acting sustainably - internally and externally

... we act responsibly and energy-efficiently, placing value on the careful use and reuse of resources and the avoidance of environmental pollution

... we treat each other with respect, appreciation, and trust

SUSTAINABILITY

Highest quality – confirmed by the durability and energy efficiency of our products

... our products and services are energy-efficient and sustainable – they last for decades with consistent quality

... our business model emphasizes the longevity of our products by offering different options of (re)purchase and rental

Transparent processes - providing security & efficiency

... with clear responsibilities and structures, we ensure speed, transparency, and traceability at all times

... we derive measurable quality, environmental, and energy targets, which we regularly review, evaluate, and adjust for efficiency

EFFICIENCY

Reliably and safe – we keep our promises

... we deliver the right service with the right products to the right place at the right time

... we ensure compliance with customer and legal requirements and provide the necessary infrastructure and resources to do so

SAFETY

Competences - our secure foundation, your added value

... our interdisciplinary team has over 5,000 years of combined expertise and experience

... with this in-depth know-how in the areas of machine, material, planning, and execution, we provide protection for people and the environment

Solution-oriented – holistic and individual with maximum flexibility

... we offer solutions for complex challenges based on individual consultation – from planning to after-sales service

... continuously improvement is not only part of our process and quality management and our energy-related outputs, but also our drive

PEOPLE
(Customers,
suppliers, employees)

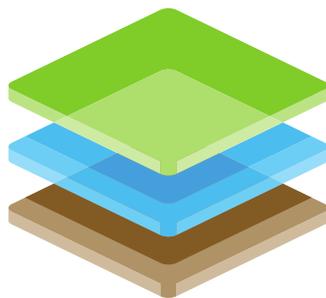

▶ Together with satisfied partners we achieve our goals – at the same time giving each and everyone the freedom to shape the future on a secure foundation
